

# Cliff Richard, Mean Streak

Well, you stand there honey, with you hands on your hips  
Well, its stoppin your feeling, baby, button your lips  
Yeah, you stand there honey with the devil in your eyes  
You say youre gonna leave me, but I know its a lie  
Uh uh honey, you got a mean streak  
Uh uh baby, you got a mean streak  
Well, if you wanna stay with me, be my lovin honey  
You must lose your mean streak  
You look so cute and you walk so nice  
Oh but your hide is as mean and as cold as ice  
Well, I found my heart, it was a big kind of faster  
And I know I was living in disaster  
Uh uh honey, you got a mean streak  
Uh uh baby, you got a mean streak  
Well, if you wanna stay with me, be my lovin honey  
You must lose your mean streak  
Well, youre standing there honey, and youre looking so pretty  
Well, Im gonna leave you standing there in a pity  
Well, you took my love and you threw it away  
And I know whats gonna happen to you someday  
Uh uh honey, you got a mean streak  
Uh uh baby, you got a mean streak  
Well, if you wanna stay with me, be my lovin honey  
You must lose your mean streak  
Yeah, mean streak  
Oh baby, mean streak  
Oh honey, mean streak  
Oh, mean streak
