

Cliff Richard, Oh No, Don't Let Go

Oh no, don't let go - all I need is a little more time
Oh no, don't let go - everything is gonna be fine
I just need some time
Give me a little more time - so don't let go

Oh well night after night I'm a little confused
I can't seem to get it right still I might
With a little assistance and a piece of your love
Get closer to your heart
Well at least it would be a start - so don't let go

Oh no, don't let go - all I need is a little more time
Oh no, don't let go - everything is gonna be fine
I just need some time

Give me a little more time - so don't let go

Well I'll try - I mean I will attempt to negotiate
This little incline -
Whoops there's a hill and another spectacular chance
For me to be -
Once again with you and I know I'll make it through
So don't let go

Oh no, don't let go - all I need is a little more time
Oh no, don't let go - everything is gonna be fine
I just need some time
Give me a little more time - so don't let go
