

Cliff Richard, On My Word

(On my word)

There will never be anyone but you child

(On my word)

No one else will ever do but you

(On my word)

I will never stay from your side

And someday youre gonna be my bride

(On my word)

They say Im the cheatin guy

They say looking girl youll find someone new

So someone new keeps in my heart

But dont believe them cause I know

That deep inside they love you too, honey

(Repeat the 1st verse)

Umm, they say that I am no good

They say that I never would stand by you

So someday when youre givin me

But dont believe them cause I know

That deep inside they love you too, honey

(Repeat the 1st verse again)
