

Cliff Richard, Tiny Planet

It's a small world
Just a tiny planet
It's a small small world
Ever since the earth began
It's been a small world
Here's the message, heed it
It's a small small world
You've got to give where it's
Most needed

Look at the children
Don't it almost break your heart?
Reach out and touch one
Reach out and help one
Make a brand new start
It's a small world
Just a tiny planet
It's a small small world
Ever since the earth began
It's been a small world

Here's the message, heed it
It's a small small worlds
You've got to give where it's
Most needed

Take a look at what you've got
Compare it to your neighbour
And the little that you need to give
Is going to be that saviour
It's a small world
Just a tiny planet

It's a small small world
Ever since the earth began
It's been a small world
Here's the message, heed it
It's a small small worlds
You've got to give where it's
Most needed
