

# Cliff Richard, We Should Be Together

We should be together for Christmas  
Together with the ones we love  
The ones we care for  
We should be together for Christmas  
And be there with the ones we love  
And not be far away  
That's why they invented planes  
So we could fly away  
To the ones we love  
And be there for this day

We should be together for Christmas  
It isn't right to be apart  
We could be here wild in our wishes  
With all the love that's in my heart  
I want you to be here  
That's why they invented trains  
So you could ride away  
To the one you love  
And be here for this day  
We should be together

And it never matters where  
Anyplace... we don't care  
Long as we both are there

That's why they invented stars

I got no need for Cars  
Just a wish and I could be there  
Where you are
