

# Cliff Richard, Who's In Love

You wonder why do the things you do  
With all the heartache that you've been through  
It's only human to feel like this  
It's only human the need to kiss

Too many times you've begun to cry  
And after all this time you still don't know why  
It's only human to feel so much  
It's only human the need to touch

Who's in love, in love with someone new  
Who's in love, in love with someone madly  
Who's in love, in love with someone new  
Who's in love, in love with someone madly  
So madly, who's in love

You wonder what will the future be  
And will the answer be there for you to see  
You're only human, you need to love  
It's only human the need to love

Who's in love, in love with someone new  
Who's in love, in love with someone madly  
Who's in love, in love with someone new  
Who's in love, in love with someone madly  
So madly, who's in love

Listen to your heartbeat (\*4)  
Listen to your heartbeat (\*4)

Who's in love, in love with someone new  
Who's in love, in love with someone madly  
Who's in love, in love with someone new  
Who's in love, in love with someone madly  
So madly, who's in love

You're only human  
You need to kiss
