

Clifford T. Ward, Another Radio Station

Another radio station

Another dream that's about to come true

We may not reach all the nation

But we' got the means to capture you

We' got something for everyone

M.O.R. to rock and roll

And for all you classical jazz freaks

We got more rock and roll.

Another smooth operation

Another chance to make some cash

And it's all down to slick professionalism

Sheer class

We'll give you sport and up-to-the-minute news

We'll dish out odd and local events

And for all you radio watchdogs

There'll be nothin' that offends

We got the money and expertise

We got the license and we wanna please

All it needs is you to change your brand

Switch the waveband, that's all it takes

Come on, give us a commercial break.

We're gonna take all the issues

And avoid 'em like the plague

We're gonna give you what we think you should have

Keep it bland and vague.

Another radio station

Another dream that's about to come true

We may not reach all the nation

But we' got the means to comfort you.

Another radio station

Another radio station

(Repeat and fade).
