

# Clifford T. Ward, Change Of Heart

It's been a long an' lonely time without you

No love to call my own

I've been hearin' such a lot about you

It seems you're all alone

So c'mon home.

Change of heart could bring us back together

Change of style took your love away

Change of heart bring us back together

An' in a while I know she'll wanna stay.

Just me an' lonely conversation

Well I long to hear you call

No fun this lack of concentration

You've been my downfall

That's not all.

Change of heart could bring us back together

Change of style took your love away

Change of heart bring us back together

An' in a while I know she'll wanna stay.

I thought that when you walked out on me

That was the end

It shows how wrong one person can be

This love can be mended.

Change of heart is bringin' us together

Change of style was takin' you away

Change of heart is bringin' us together

An' in a while I know you'll wanna stay.

Change of heart is bringin' us together  
Change of style was takin' you away  
Change of heart is bringin' us together  
An' in a while I know you'll wanna stay.

(Repeat and fade).
