

Clifford T. Ward, Got To Get Into Your Way Of Life

I've got to get into your way of life

I've got to get into your way of life.

I've tried to understand you

But I don't really get through

I love you and I have to

Try to get across to you.

I've got to get into your way of life

I've got to get into your way of life.

You say I really don't try

But you always disapprove

Give me time, things 'll be fine

I can make a better move.

I've got to get into your way of life

I've got to get into your way of life

I've got to get into your way of life

I've got to get into your way of life

(and fade).
