

Clifford T. Ward, Tomorrow Night

Tomorrow night, everythin' 'll be alright

Tomorrow night, I'm gonna treat you right and

Love you so, like I should 'a' done long ago and

Hold you close, like I would 'a' done if you'd let me know.

Tomorrow night, all the stars above will

Shine so bright - down upon our love and

Heaven knows what I must have been thinkin' about

I just don't know but we'll put it right - tomorrow night.

INSTRUMENTAL

Heaven knows, what I must have been thinkin' about

I just don't know but we'll put it right - tomorrow night.

Tomorrow night, everythin' 'll be alright

Tomorrow night, I just wanna treat you right and

Love you so, like I should 'a' done long time ago and

Hold you close, like I would 'a' done if you'd let me know.

Tomorrow night - everythin' 'll be alright

Tomorrow night - I'm gonna treat you right

Tomorrow night - everythin' 'll be alright

Tomorrow night - I'm gonna hold you tight

(Repeat and fade).
