

# Clinic, Distortions

I'd like to know completely  
What others so discreetly  
Talk about when they leave me  
Not that I notice when they're gone.

It's eerie and so scary:  
I don't know who to marry.  
Your sister came to bait me.  
Oh, your sister came to bait me  
But I love it when you blink your eyes.

Oh I, I want to know my body.  
I want this out, not in me.  
I want to know no secrets showed.  
I leave, oh I leave cured.

It saved me once too often,  
You'd never know how often.  
I've pictured you in coffins:  
My baby in a coffin.  
But I love it when you blink your eyes.

Oh I, I want to know my body.  
I want this out, not in me.  
I want no other leakage.  
I want to know no secrets yet.  
I leave, oh I leave, now I leave cured,  
Free of distortions,  
Free of distortions,  
Free of distortions,  
Free of distortions,  
Free of distortions,  
Free of distortions,  
Free of distortions.
