

# Clinic, Mr. Moonlight

Kathy in the sun  
Kathy has just come  
No other family warmth that blinds your home  
And people in the know are just people in the know  
Rush them on the sands and all go home, its goodnight  
Candleman would never  
Oh candleman would never mind

Lesters on the ropes,  
Lester and the hoax  
No other family warmth that binds your home  
And people in the shows are just people in the shows  
Rush them on the sands and all go home, its goodnight  
Candleman would never  
Oh candleman would never mind

Sonny knows you know you know what has begun  
Sonny come come up the front  
All the elephants came out now you can dismount  
With the family warmth that binds your house  
people in the know are just people in the know  
Rush them on the sands and all go home, its goodnight  
Candleman would never  
Oh candleman would never mind
