Nita and her black haired mother in the warmth and in the glow  
Sow them up like any other, sow them up like one you know  
Sow them up like one you know, sow them up like one you know

Vulture vulture uncoverd vulture vulture disclosed  
And the best you left here for others, is the best the rest of us know

Gilly in the summer lazing in the warmth and in the glow  
Sow them up like any other, sow them up like one you know  
Sow them up like one you know, sow them up like one you know

And the best you left here for others, is the best the rest of us know  
Vulture vulture in pieces, vulture vulture disclosed  
And the best you left other people, is the best the rest of us know
