

# Clinic, Welcome

You see your sun is gentle, see your Sunday clothes  
And the new beginnings just beginning to unfold  
Best of all the summers warm see our lady with her shawl  
Come and come forever could you go go go for more  
Now your welcome with us more  
Now your welcome with us more  
Who would you disintegrate for?

And see us in the kitchen, see us on the floor  
And the new beginnings that are beginning at the door  
Best of all the summers warm see our lady with her shawl  
Come and come forever could you go go go for more  
Now your welcome with us more  
Now your welcome with us more  
Who would you disintegrate for?

Get it all in the open, get it out of your cloak  
And the new beginnings just beginning to unfold  
Best of all the summers warm see our lady with her shawl  
Come and come forever could you go go go for more  
Now your welcome with us more  
Now your welcome with us more  
Who would you disintegrate for?
