## Clint Black, Cadillac Jack Favor

He's Cadillac Jack Favor and the name rings true If he's got a ride any stranger would too The one bad habit that his Ponder would say Is sure gonna put him through the trials one day And that's just what happened he took pity on two men Headin' down to Louisiana, he stopped and let 'em in And the thanks he'd get for helpin' them Would make him wish he was bustin' broncs again

## Bridge:

He dropped 'em off in Bossier City where they met up with a man Now that vagabond committee barely even had a plan It was just a simple robbery turned double homicide And they got away with murder it'd be someone else's hide Almost two years come and gone, they never solved that crime 'Til they found one of our vagabonds already doing time And when that jailbird started singing they know all the words were wrong But the sheriff and the D.A. and the judge all sang along They pinned it on Jack Favor, gave him life without parole Gave Jack's freedom to the jailbird, payment on the lies he told And it just so happens that election year Everybody made out at the polls

## Chorus:

Cadillac's no fallen hero and he's never gonna break When it comes to prison rodeo, there'll be no easy eight And if you want the definition of a picture perfect frame It be in the dictionary underneath Jack Favor's name

## Repeat Chorus

Yeah, it's the wold's most crooked picture and when it comes to being framed Cadillac Jack Favor should be in the Hall of Fame
