

Clint Black, I'll Be Gone

Since before I learned to walk, I've been running
And I could always see the light before the dawn
Somewhere, someone won't even see me coming
And before they see me going, I'll be gone
Now you've got questions I don't care to answer
And I don't get off on leading people on
And it's safe to say I'm no second chancer
And the chances are I don't know right from wrong.

You could never change my mind
And I won't change my ways
And from the start the lines have all been drawn
That I'll just leave you behind
Forgetting all my yesterdays
I said before you see me going
I'll be gone.

--- Instrumental ---

You could never change my mind
And I won't change my ways
And from the start the lines have all been drawn
That I'll just leave you behind
Forgetting all my yesterdays
I said before you see me going
I'll be gone.

I said before you see me going
I'll be gone...
