

# Clint Black, Our Kind Of Love

Clint Black & Alison Krause & Union Station  
(Clint Black / Shake Russell)

Long ago with a younger partner  
Always in love but a love for sure  
Their hearts were lost out in the shuffle  
Of a hook and wings on a sawdust floor.

Now they hold their own out on the liners  
They're always prime for something slow  
And you won't find them changin' partners  
Love will keep in step keepin' up with a country set  
It's our kind of love I'll bet  
They're together everywhere they go.

Now they're on in years and they don't need a reason  
All the lights are on for the same old thing  
When they call Let's dance, their song will still be playin'  
Til' the end of time their love'll be in full swing.

And they hold their own out on the liners  
They're always prime for something slow  
And you won't find them changin' partners  
Love will keep in step keepin' up with a country set  
It's our kind of love I'll bet  
They're together everywhere they go.

Love will keep in step keepin' up with a country set  
It's our kind of love I'll bet  
They're together everywhere they go  
It's our kind of love  
I'll bet they're together everywhere they go.

--- Instrumental to fade ---
