

# Clint Black, That Something In My Life

The older you get the more you stand to lose  
You can bet that we'll all have our turn  
And if I lost everything right down to my shoes  
As long as you love me I won't be concerned

(Chorus)

There's one thing in life that I can't replace  
It's written in ways even time can't erase  
Some things really are too good to be true  
That something in my life is you

I spent my time on money and things  
That won't do a heart any good  
With nothing to gain but the space that it brings  
It had always been empty til I understood

(Repeat Chorus)

One thing's for certain and without a doubt  
Your love is something I can't live without  
Some things really are too good to be true  
That something in my life  
One thing in my life  
That something in my life is you
