Clint Black, Walkin' Away

Walkin' away I saw a side of you That I knew was there all along And that someday I'd say goodbye to you 'Cause one right can still make two wrong

Not for each other, not from the start The difference was day and night My finest hour spent here with you in the dark Was just before I saw the light

It's the people who want love and the people who need love Who find love on the way I'll be lookin' for someone 'til I find the right one Then I won't be walkin away

Now that I know what I'm tryin' to find There's only one place it could be So I'm lookin' ahead, I've stopped lookin' behind For someone who's lookin' for me

It's the people who want love and the people who need love Who find love on the way I'll be lookin' for someone 'til I find the right one Then I won't be walkin away
