

Clödie, Christmas Time In The City

Going home again for Christmas
To find some peace of mind
Feels like I wanna stay forever
And watch the days go by

Early morning light
I'm alone in bed
But you're in my head
Early morning light
Wish upon a star and wonder where you are

It's Christmas time in the city
[Merry Christmas, Merry Christmas
It's Christmas time in the city
[Merry Christmas
So you better not be late
'Cause tonight we celebrate in the city
[Merry Christmas
Yeah, you better hurry up
'Cause tonight we're making up in the city
[Merry Christmas]

Like a million candles in the sky
The stars are shining brighter and brighter now
[Let it snow, let it snow, let it snow
This time of year we wanna be together
The Christmas spirit's get to us everywhere
[Let it snow, let it snow, let it snow]

Early morning light
Wish upon a star and wonder where you are

It's Christmas time in the city
[Merry Christmas, Merry Christmas
It's Christmas time in the city
[Merry Christmas
So you better not be late
'Cause tonight we celebrate in the city
[Merry Christmas
Yeah, you better hurry up
'Cause tonight we're making up in the city
[Merry Christmas]

It's Christmas time [So hurry up
[Merry Christmas, Merry Christmas
It's Christmas time [Then all is bright
It's Christmas time [So hurry up
[Merry Christmas, Merry Christmas
It's Christmas time [Then all is bright
[Merry Christmas, Merry Christmas]
