

# Clones Of Sam, Only Love

The simple life  
All dressed in white  
I miss you like the summer  
This war I fight  
All stuck inside  
I miss you like no other

It's alright it's only love

Love  
I sit around and watch  
My dog keep yawning  
He loves you too

Don't you know?  
I'm feeling awful proud  
I think I'll run away

I can't be sold  
And I could never miss it  
I gave you up  
but It's alright it's only love

The sun  
You are the sunshine  
When it melts my snowman  
I'm melting too

Don't you know?  
Or do I need to write it down  
To make you understand  
me good

I can't be told  
That I could never miss you  
I gave you up  
but It's alright it's only love

These words I'm breathing  
Can't wash away  
It's murder to your ears  
I'll cross the desert  
To drive away  
All of your fears
