

Close 2 You, Baby Don't Go

Baby don't go (Baby please don't go)

In my dreams I know you're always by my side
Everywhere I go you linger in my mind
I've been waiting so long for a special guy
Then you came to lift me up and make me fly

Baby don't go I just want you here
Right by your side I won't hide my tears
Baby don't go, waited for so long
' want you so, come on hold me strong

Got this feeling that I can't resist you
From the moment I laid my eyes on you
Won't you tell me what you want to do
Cause my heart is getting lost inside of you (2X)

(Hold me in your arms and whisper in my ear)

Guess I've always known that you would say goodbye
Time and time again your love has made me cry
I've spent hours trying to get you on the phone
By the phone I bet you're feeling so alone

Baby don't go

(Hold me in your arms and whisper in my ear
Give me what I want, say the words I want to hear
Hold me in your arms like you never go away
I'm waiting for your touch, just begging you to stay

Got this feeling that I can't resist you'.
