

# Close 2 You, Set Me Free

From the first time I saw you  
Your eyes are burned into my heart  
this heat I'm exposed to  
I feel the fire, tear me apart

I'm not looking for devotion  
you gotta show me some emotion  
Caresse me body, touch my sou  
Come on baby, lose controle!

Give your love to me  
Fill me up with ecstasy  
And set me free  
Set me free

Sweet words that you told me  
the lines are frozen in my mind  
I felt cold and so lonely  
You broke the ice but left me behind

Now l'ts time to give some action  
Words won't give me satisfaction  
Hold my body, Don't say no  
Come on baby, Let yourself go!

Give your love to me  
Fill me up with ecstasy  
And set me free  
Set me free

Set me free  
you gotta prove it to me  
Prove It, Prove It  
Fill me up with ecstasy  
Prove it, prove it  
Set me free, Right now!

Give your love to me  
Fill me up with ecstasy  
And set me free  
Set me free
