

# Close To Home, All We Know

Rise and shine,  
It's another day away from home,  
Say goodbye  
To the places that you've come to know,  
We're moving on....

I've been counting down the hours,  
'Till our feet hit solid ground,  
We do it for the love of this,  
You can never shut us down

Rise and shine,  
Welcome to this open world,  
Hold it high,  
And let the dreams that you have unfold

Here we stand  
together this is all we know,  
(we'll never back down),  
Our feet sit firmly to the ground,  
(our feet sit firmly to the ground)

Rise and shine,  
Keep these nights forever in our hearts,  
You will find,  
They will never tear this apart,  
We're moving on

We've been waiting for the right time,  
To set this perfect plan in motion,  
Its only just a matter of time,  
Until we break this thing wide open

Here we stand  
together this is all we know,  
(we'll never back down),  
Our feet sit firmly to the ground,  
(Our feet sit firmly to the ground)

Here we stand  
together this is all we know,  
(we'll never back down),  
Our feet sit firmly to the ground,  
(Our feet sit firmly to the ground)

You will respect me,  
If its the last thing I do,  
You will respect me,  
I am above all of you

Here we stand together,  
This is all we know,  
(we'll never back down),  
Our feet sit firmly to the ground,  
(Our feet sit firmly to the ground)
