

# Close To Home, Family Ties

I'll seize this moment and make it mine  
Remember when we were younger and had nothing but time  
And now I know there's so much in my way  
But it won't keep me held down 'cause I've got something to say

We're all just kids growing up too fast  
Focused on the future but not forgetting the past

So I live my life like it's a story to tell  
Don't try to stand in my way  
'Cause I can make a bet that you'll fail  
But I'll push on and on  
Till every doubt is gone  
Nothing's gonna stand in my way  
I control my own fate

If you are not scared  
Then you're not taking a chance  
The road ahead is paved by those who took the risk

We're all just kids growing up too fast  
Focused on the future but not forgetting the past

This will always be my family  
This will always be my family

So I live my life like it's a story to tell  
Don't try to stand in my way  
'Cause I can make a bet that you'll fail  
But I'll push on and on  
Till every doubt is gone  
Nothing's gonna stand in my way  
I control my own fate

This will always be my family  
You've been here for me since the beginning  
This will always be my family  
I'll be there for you till the end

So I live my life like it's a story to tell  
Don't try to stand in my way  
'Cause I can make a bet that you'll fail  
But I'll push on and on  
Till every doubt is gone  
Nothing's gonna stand in my way  
I control my own fate

Don't forget where you've come from
