Can you feel? Can you feel? Can you feel Can you?

On the way of your life and love A final stop is dark oblivion Lay it on me I could try to show you out

Can you feel? Can you feel?

On the way of your life and love Where you lost your soul I know a direction in which we can go

Can you feel? Can you feel?

I enjoy I enjoy Leading you like a blind man I enjoy

I enjoy I enjoy Giving my thoughts to you I enjoy

You're like a toy in my hands You're like a toy...
