

# Clouds, Aquamarine

From the shores of a far sea  
She comes flying to me  
And I know what she means

She's coming here to ride with me on a wave  
My princess  
Aquamarine  
Blue and golden like my dreams

And she shows me  
What she sees

Child of the ocean, you hold me without hands  
Sea princess  
Aquamarine  
How delicate you seem  
Ultra-serene  
I'm drifting slowly down your stream

It's mystery  
You are to me  
It's ecstasy

Spring summer on me and bring all that that brings  
Forever  
Aquamarine  
So delicate you seem  
Ultra-serene  
I'm slowly drifting down your stream

It's mystery  
You are to me
