

# Clouds, Babies Arms

Hold me, love me  
Take me, make me  
Breathe in new air  
Make my heart care

Hover near me  
Watch over me  
Come back one day  
Come back to stay

Want my babies arms  
(Want my babies arms)  
'Round me babies arms  
(Round me babies arms)

Maybe next time  
Be the right time  
Hope the planets  
Fall into line

High the silver  
Cord that held you  
Floating near me  
Can you hear me

Want my babies arms  
(Want my babies arms)  
'Round me babies arms  
(Round me babies arms)

You're in the air I have to breathe  
You didn't come how could you leave  
I long to be inside your arms  
You should be here inside me

Want my babies arms  
(Want my babies arms)  
'Round me babies arms  
(Round me babies arms)
