

Clouds, Renee's Problems

So Renee's got problems
And they're getting big
Do you think she's lonely?
God, I love that kid
So I owe you money?
I could do with more.
I don't think it's funny
And you think it's a bore.

We got a lot to talk about
We got a lot to try out
We got a lot to talk about
We got a lot to try out

I went by the old place
Grass is getting tall
Do you still remember
What we did by the wall?
Well, it doesn't matter
I got someone new
But sometimes I wonder
Why I hate you.

We got a lot to talk about
We got a lot to try out
We got a lot to talk about
We got a lot to try out

We went to the mountains
Me, Renee and Jim
But she can't accept it
No she don't like him
Well, I guess it's normal
And time is a bridge
Anyway, I miss you
And I guess it's the end.

We got a lot to talk about
We got a lot to try out
We got a lot to talk about
We got a lot to try out
