

Club Des Belugas, Hip Hip Chin Chin (Smooth Return)

The subject for tonight's lecture is rythm (the beat)
the driving force that holds our lives together
without rythm your heart wouldn't be
without direction
without moves
without shakes

and so tonight we say hip hip chin chin the rythm's action

the beat(11x)

and so tonight we say
hip hip chin chin(10x)

the beat(3x)

The subject for tonight's lecture is rythm (the beat)
the driving force that holds our lives together...
and so tonight we say hip hip chin chin
