

Club Sahara, Clubasse Live Set

You throw me stars
I run to catch them so far away from you
I've been a sky the sparkle for me
the game was never truth
I knew you're standing next to me
and I'm standing next to you
but where are you, where are you
REF.
Can I wait forever to see you again
can I wait from the stars to shine (to shine)
far away you whisper
I'll be there win you when
so I wait to the end half time
until the end of time..
You pull me closer
tell me secrets and stories left untold
and in your heart beat
I've started burns to keep you from the cold
And You are lying next to me
and I am lying next to you
but where are you, where are you
REF..
but if I live it up to you
will you look me other way
and if I live it up to you..
but things just change the same
