

Co-Ro, Stand By Your Lover

Sometimes at night when it gets so quiet
I think back to when we started
So many years ago our love was so new
We swore, you and I to forever be true
And I reach into my soul
So our love wouldn't fade
You feel the same
'Cause we thought we had it made

Chorus:
Stand by your lover
Have the faith you need in you
You gotta stand by your lover
Repeat (1x)

No one could compare to the love we'd be
And whatever life would roll our way
You were by my side
And we knew in each other's hearts

We would always confide
So I reach into my soul
So our love wouldn't fade
You feel the same
'Cause we thought we had it made

Chorus (4x)

And just here we stand so many years later
With our love as strong as yesterday
We belong together
I'm so lucky I found you
I know we will always be

Chorus (4x)
