

Co-Ro, Temptation

My temptation is coming from my heart
That skips a bit just like a game
Everytime you call my name, call my name

It's only you
I want you too
It's only you
I want you too
Come

Do you see what I mean talking 'bout fever
The fire burns inside of me
And you can quench me easily, so....
Let me hold you and squeeze you like a fool
Because I'm crazy about you
When you sit down and cross your legs, cross your legs

Temptation
Temptation...
Come

You're sweeping away without a reason
Unless someone else is loving you
I'd want to have you by my side, by my side

Temptation
Temptation...

It's only you...
I want you too!
It's only you .
I want you too!

My temptation is coming from my heart
That skips a bit just like a game
Everytime you call my name, call my name

Temptation
