Co-Ro, Temptation

My temptation is coming from my heart That skips a bit just like a game Everytime you call my name, call my name

It's only you I want you too It's only you I want you too Come

Do you see what I mean talking 'bout fever The fire burns inside of me And you can quench me easily, so.... Let me hold you and squeeze you like a fool Because I'm crazy about you When you sit down and cross your legs, cross your legs

Temptation Temptation... Come

You're sweeping away without a reason Unless someone else is loving you I'd want to have you by my side, by my side

Temptation Temptation...

It's only you... I want you too! It's only you . I want you too!

My temptation is coming from my heart That skips a bit just like a game Everytime you call my name, call my name

Temptation Temptation...
