

Cobra Starship, Aww Dip

I don't mind falling down to try again
'Cause when I get back up on my feet,
I make the music stop
So hear me now
Every bridge you cross is burning down
Don't fail me now
Every bridge you cross is burning
(one, two, three, go!)
Brothers, we waited forever
Sisters, c'mon let's get it together
Brothers, sisters, listen up
Gotta little secret that they're never gonna stop us
Oh, we'll burn them down
I don't mind falling down to try again
When I get back up on my feet,
I make the music stop
Hear me now
Every bridge you cross is burning down
Don't fail me now
Every bridge you cross is burning
(one, two, three, go!)
Brothers, we waited forever
Lyrics
Sisters, c'mon let's get it together
Brothers, sisters, listen up
We gotta little secret that they're never gonna stop us
Oh, we'll burn them down
We can't waste the time we're given now
All bets are off, we're turning this around
'Cause I can smell a rat from miles, miles away, miles away
And I'm ready for it
Awww dip I used that line, line, line again
Brothers, sisters, listen up
Gotta little secret that they're never gonna stop us
Brothers, sisters, listen up
Gotta little secret that you're never gonna stop
Brothers, sisters, listen up
Gotta little secret that they're never gonna stop us
Oh, we'll burn them down
