

Cobra Starship, Kiss My Sass

They say that kiddie's got...
I'm bringing sassy back
I never finish a thought
You can't forget 'cos you know nothing but my name
'Cos I don't want to hear about people I don't know
Not you, Not him, Not her, No
You only see what I let you see
Nothing less and nothing more
What you say is nothing new to me, honestly
They say that kiddie's got soul
I'm everywhere that you go
And I've been there seen that and I am taking you home
No
Oh oh oh oh
(I'm in)
God I like
I can be a nasty guy
So you should promise me
Cos' you're a wolf and coming quick
If you don't get it let me repeat it just forget what you think
Only see what I let you see
Over and over again
What you say is nothing new to me,
honestly
They say that kiddie's got soul
I'm everywhere that you go
And I've been there seen that and I am taking you home
No
But what do they know
I'm everywhere that you go
And you've still got soul
And I've been there seen that and I am taking you home
No
Oh oh oh oh
Travis:
Here we go
They say that the kid has got more so than flight club
Can't you tell by the way I use my wall
Travis stay way cool than the hand that look at
Let it bite too many times worse than my whore
Yeah it took a little time but I'm finally here
10 years deep just to make things clear
Now what we got going double B's in the air
Now get it off your chest like a tight little sear
Don't regret it
Just let it
Give credit
Don't sweat it
You can try
But you just can't stop
Fangs up
Cobra style
Honestly
They say that kiddie's got soul
I'll never let you go
And I've been there, seen that, and I am taking you home
No
But what do they know
I'm everywhere that you go
And you've still got soul
And I've been there, seen that, and I am taking you home
Oh oh oh oh
I'm everywhere that you go
And I've been there, seen that, and I am taking you home
