

# Cobra Starship, Move Like You Gonna Die

You wanna run your mouth?  
You better find something new to say.  
Cause kid, I heard it all before.  
You're such a rockstar.  
What's with the attitude?  
Man, I had attitude,  
Before I ever did good.

Gotta get on your feet now (feet now)  
Shut your mouth, get on your feet now, baby.  
We gotta move past the beast now  
Just move, just move.  
Cause at night, you can't see me.  
Smoke this dance floor, one, two, three, four!

I have the best taste in this whole damn place,  
But I've had it up to here with the crowd,  
I'm leaving now, let's go right now.  
And you've got the most craze in this whole damn place,  
If you wanna disappear, let's make a clear break right now.  
Let's go right now.

So just move,  
Just move,  
Just move like you gonna die soon.  
So just move,  
Just move,  
Just move like you gonna die soon.

I am misunderstood, but I ain't always good,  
I won't apologise, screw Hollywood.  
But yo, I'm kinda soft, I was the underdog.  
Here before tomorrow, I still know where I came from.

Gotta get on your feet now (feet now)  
Shut your mouth, get on your feet now, baby.  
We gotta move past the beast now  
Just move, just move.  
Cause at night, you can't see me.  
At AK47, five, six, seven!

I have the best taste in this whole damn place,  
But I've had it up to here with the crowd,  
I'm leaving now, let's go right now.  
And you've got the most craze in this whole damn place,  
If you wanna disappear, let's make a clear break right now.  
Let's go right now.

So just move,  
Just move,  
Just move like you gonna die soon.  
So just move,  
Just move,  
Just move like you gonna die soon.

Cause at night, you can't see me.  
Even if you don't know the beat  
Cause at night, you can't see me.  
Yeah, I know you won't hate me.  
I got no time if you don't know how to move,  
Just wanna dance with you, don't wanna talk to you.  
Tonight, you can't see me.  
Smoke this dancefloor, one, two, three, four!

I have the best taste in this whole damn place,  
But I've had it up to here with the crowd,  
I'm leaving now, let's go right now.  
And you've got the most craze in this whole damn place,  
If you wanna disappear, let's make a clear break right now.  
Let's go right now.

So just move,  
Just move,  
Just move like you gonna die soon.  
So just move,  
Just move,  
Just move like you gonna die soon.
