

# Cochise, MLB

Where is the cradle I can look into and smile or cry... Mother

When the water finds me  
I'm clean to start again  
When the love just breaks me  
I feel my sense  
The water still reminds me  
The water still reminds me

She's gonna lay  
She's gonna lay  
You, down boy in the cradle

She's gonna lay  
She's gonna lay  
With arms around your circle

But remember

Mother love to bone

Mother  
I lost my way  
Mother  
I hurt myself  
Mother  
I hurt you bad

Please stay  
Please wait  
Please mother  
Help me

She's gonna lay  
She's gonna lay  
You, down boy in the cradle

She's gonna lay  
She's gonna lay  
With arms around your circle

But remember

I love You, Mother.
