

Cochise, SAD WOMAN

She got love in me
I feel her trembling hands
She got home in me
I feel her different glow
She got love on fire
She got bad desire
She got time
And every thing
Sad woman
Sad woman she feed me

She?s a woman now
She came and go
She?s a woman now
Behind your doors
She?s a woman now
She cut herself
She?s promise land
Before the end

Under water she just try to live againe
You are the stone
You wait for her
You want some more
Just like a ship
You came and go
You need a land
But she still

Under water she just try to live again

Every time I see you on my way
Every time I feel your small or taste
Every day every night
Sad woman feed me the time
Sad woman set me free
Sad woman so let it be
She?s a woman now
Yes she?s a woman now
She?s woman now
She feed me over

Wait a minute little girl I show you something your eyes
Wait a minute little girl I give you all my love tonight
Just for the moment just for a while just for you my little girl
I give you all my love I give you all my love I give you all my love today
