

# Cochise, Under My Streets

Like a morning star  
Like a butterfly  
With your open eyes  
Kill the other side  
Kill the pain you hide  
Kill the love you hate  
Try to understand  
And be my wave

Like a morning star  
Like a butterfly  
With your open eyes  
Kill the other side  
When I lost myself  
Try to be my friend  
Don't forget my name  
Under streets of saint

And hold the world outside

She's my world mother  
Under streets

You know you're my world  
And I pray for you  
You know  
You go like the sun  
You know world she's mine, mine, mine

We're all living under the streets  
For our love  
For our generation  
For our times  
And our dreams

We are under my streets
