

# Cock Sparrer, Price Too High To Pay

So what you gonna do, you gonna stick with the crowd  
Walk the streets of the city following the biggest mouth  
They want you for their dreams full of hate and oppression  
When they're done they're all the same weekend politicians  
What they're gonna give you ain't nothing  
To what they'll take away  
And that's a price too high to pay  
So don't let them have your mind don't get left on the shelf  
Don't fight the innocent they need some of your help  
You are the future be true to yourself  
You are the shock troops it's your way out of here  
What they're gonna give you ain't nothing  
To what they'll take away  
And that's a price too high to pay  
A price too high [x8]  
A price too high to pay  
So what you gonna do, you gonna stick with the crowd  
Walk the streets of the city following the biggest mouth  
They want you for their dreams full of hate and oppression  
When they're done they're all the same weekend politicians  
What they're gonna give you ain't nothing  
To what they'll take away  
And that's a price too high to pay  
A price too high
