

# Cock Sparrer, We're Coming Back

We're coming back  
We're coming back  
We're coming back to you  
We're never gonna go away again  
Hold on a little longer, try a little harder  
'til we're arm in arm together to the end

[Chorus]

So remember, out there somewhere you've got a friend,  
And you'll never walk alone again.

Don't get worried  
Don't get scared  
We're fighting to get there  
Never doubt we're gonna get through  
We're gonna run  
We're gonna crawl  
Kick down every wall  
It won't be long we're coming back to you

[Chorus]

So remember, out there somewhere you've got a friend,  
And you'll never walk alone again.

[Guitar Solo]

We're coming back  
We're coming back  
We're coming back to you  
We're never gonna go away again  
Hold on a little longer, try a little harder  
'til we're arm in arm together to the end

[Chorus]

So remember, out there somewhere you've got a friend,  
And you'll never walk alone again.

[Guitar Solo]
