

CoCo Lee, Where You Go

Wherever you go
That's where I wanna be
Wanna go wherever you lead
You are my heart and so I will always follow

Wherever you go
Wherever you go

Life before you
Was full of near misses
Uncertain nights
And half hearted kisses

Isn't it unbelievable
Almost inconceivable
But here you are like a waking dream
With love beyond imaging

Wherever you go
That's where I wanna be
Wanna go wherever you lead
You are my heart and so I will always follow

Wherever you go
Wherever you go

You look in my eyes
And I can see heaven
You hold me close
and it feels like a river

Isn't it unbelievable
Baby it's a miracle

To see you all like an open door
To everything I've waited for

Wherever you go
That's where I wanna be
Wanna go wherever you lead
You are my heart and so I will always follow

Wherever you go
That's where I wanna be
Wanna go wherever you lead
You are my heart and so I will always follow

No matter how far
Or whatever winding road you choose
Wherever you are
I wanna be there
I wanna be there

Wherever you go
That's where I wanna be
Wanna go wherever you lead
You are my heart and so I will always follow

Wherever you go
That's where I wanna be
Wanna go wherever you lead
You are my heart and so I will always follow

Wherever you go
That's where I wanna be
Wanna go wherever you lead
You are my heart and so I will always follow
