

# Code Lyoko, A World Without Danger

There is a world that is virtual and strange  
But evil corrupts it  
And xana is his name  
Our only hope is to reprogram this world

Chorus

Here we are going far  
To save all that we love  
If we give what we've got we will make it through  
Here we are like a star  
Shining bright on your world today  
Make evil go away  
Code lyoko we will stand alone  
Code lyoko be there when you call  
Code lyoko we will stand real tall  
Code lyoko stronger after all

In this pixel world everything is bits and bytes  
We must have the strength to put up a valiant fight  
The time is unknown  
It may last throughout our lives

(chorus)

We took the oath to provide the maximum  
Give all to the fight  
There'll be victory in the end

(chorus)
