Code Red, Break It To Me Gently

I think of you every minute of the day
Even if I'm miles away
Cos I can't wait to hear you say
You love me
Since you came into my life
Everything's been so right
We don't ever have to fight
It's perfect
But if you ever change your mind about us girl...

Chorus:
Break it to me gently
Cos I don't heal so easily
If you have to leave I'm asking of you please
If you're gonna break my heart and tear this love apart
Break it to me gently

I love the way that you always take my hand
Let them know that I'm your man
So they all can understand
You love me
I've never felt like this before
And everyday I'm feeling more
You're everything that I wished for
You're perfect
But if you ever change your mind about us girl...

Chorus:
Break it to me gently
Cos I don't heal so easily
If you have to leave I'm asking of you please
If you're gonna break my heart and tear this love apart
Break it to me gently

Cos if you let me down I know
That there'll be no where else I'll want to go
So if you're making other plans
Give me a chance....and....

Chorus:
Break it to me gently
Cos I don't heal so easily
If you have to leave I'm asking of you please
If you're gonna break my heart and tear this love apart
Break it to me gently
