

# Code Red, Guess I-M Lost In You

If anyone had told me  
That you would be my girl  
And I would be your man  
There's not a chance that I'd believe it  
Cos look at who you are  
And look at who I am  
But the first thing that you taught me  
Is things like that don't matter  
We should look much further  
Cos you don't love what you see but what's inside  
And when I reached inside to feel your love  
I could not believe how much there was  
And so I have to give to you the rest of me  
To match your love

Chorus

Guess I'm lost in you  
Can't stop loving you  
Just believe it  
You know I mean it  
Loved you from the start  
Owner of my heart  
Guess I'm lost in you  
Guess I...guess I...

If this is just a dream  
Then leave me, let me sleep  
Don't disturb me please, no...

I wanna stay right here forever  
Where love can't be denied  
Cos you're right by my side

Each time I reach inside to feel your love  
I believe in what I touch  
And I give to you the rest of me to match your love

Chorus

Guess I found what I was looking for  
A love to last forever more  
I know that you're my truest friend  
Here till the end  
And then we can start again  
I guess I'm lost in you lovin' you  
Chorus
