

Code Red, I Check For You

(Lew/Graham/Olton)

You know I check for you now
Nothing I wouldn't do now
Ain't no other girl could turn my head
From the first time I clocked you
I knew I had to have you
Ain't no other girl gonna share my bed

Other girls may come and go
You're the one I want to know
Give it, give it, give it, give it to me

Chorus:

I check for you, can I flex with you
Wanna be with you, wanna be with you
Wanna flex with you all night
Check baby, check baby, Let me know what's going on

I wanna flex with you girl
Something I gotta do girl
And no other girl come even close
I try to keep my cool now
But I could be a fool now
'Cos your kind of love I need the most

I just got to knock your boots
I won't bow when I can shoot
Give it, give it, give it, give it to me

Chorus
