

# Code Red, Just A Little More

You know you got my mones all buzzin', babe,  
Just thinking about your lovin, babe,  
(Just thinking about your lovin, babe)  
Girl, I can't seem to get you of my mind,  
Got thoughts workin overtime,  
(got my thoughts working overtime)  
You feed me the love my soul needs to survive,  
All I need right now, babe...

Just a little more time with you,  
Wanna make love with you,  
You'll never know just how I feel,  
Till I show this love's for real,  
Just a little more time with you,  
Let me get you in the mood,  
Cos I'll leave you in no doubt,  
That it's me you can't do without,  
Just a little more time without you...

What we've got is sweet as honey, babe,  
We don't need nothin' babe,  
(We don't need we don't need nothin, babe)  
I take the blame for what you've been going thru,  
For being such a fool to you,  
(I know I've been such a fool to you)  
Sometimes as a man, we all make the same mistakes,  
I just hope it's not too late...

Just a little more time with you,  
Wanna make love with you,  
You'll never know just how I feel,  
Till I show this love's for real,  
Just a little more time with you,  
Let me get you in the mood,  
Cos I'll leave you in no doubt,  
That it's me you can't do without,  
Just a little more time without you...

You're the only thing that I've ever craved,  
Only thing, only thing,  
So I'm asking you,  
Please don't take it away,  
Not this time,  
Tell mewhat to do to prove my love for you,  
Gonna prove my love to you, babe,  
Even if you asked me to fly,  
I would fly...

Just a little more time with you,  
Wanna make love with you,  
You'll never know just how I feel,  
Till I show this love's for real,  
Just a little more time with you,  
Let me get you in the mood,  
Cos I'll leave you in no doubt,  
That it's me you can't do without,  
Just a little more time without you...
