

Codeseven, Danger

You know you get what you want
You get what you want
because you look at me
You know you get what you want
be we float downstream yeah
All is clear
under this translucent skin
but you won't let me in
The shade of your eyes
The shape of your eyes
Change the subject while you still can
but its not gone no its not gone
Engage the subject while you still can
but its not going anywhere
All is clear
under this translucent skin
but you won't me in
The shape of your eyes
The element of surprise
So sit down
Just sit down
lets wait here
cause its not over
YOU KNOW YOU'LL GET WHAT YOU WANT
