

COIN, Chapstick

She's a friend of mine and a apple pie
And a sharp shooter, I'm in the overtime
Hey, sharpshooter
I feel like I'm intruding
She's a friend of mine and the alibi
And the getaway car in overdrive
Hey, sharpshooter
I like the way you're moving
She's a real livewire What's she talking about?
I think I love her

Don't come back looking for me, me
I won't come back looking for you, you, you

I just wanna be here
Walking like an animal
I just wanna teach ya
A thing or two
Let's lose control and alt delete
12345
I don't wanna fight butterflies
Out of sight out of my mind

I just wanna taste your chapstick

I just wanna dance baby
I just wanna cry lately

I saw her face from across the room
Eyes looking at me, looking at you
Hey, cherry blossom
Yeah, what's your problem?
I don't want your leather jacket
I just wanna taste your chapstick
Hey, sharpshooter
What are we doing?

She's a real wildfire
And she's hard to contain
She's going nowhere
She's a real livewire
What's she talking about?
I think I love her

I just wanna be here
Walking like an animal
I just wanna teach ya
A thing or two
Let's lose control and alt delete
12345
I don't wanna fight butterflies
Out of sight out of my mind

I just wanna taste your chapstick

I just wanna dance baby
I just wanna cry lately
